OTHER EXPERIENCE:

Favela football charity event organization.

February-June 2018: The Hague.

I participated in the organization of the Favela Football event to raise money for the Favela charity. My role was marketing, promotion, preparing poster and advertisements to get children to sign up; and the ordering and design of the crews t-shirts while working with a printing company from Slovenija (Etiketa) to agree on a design and amount of t-shirts ordered. From this event I gained personal strength and growth including collaboration skills, organization skills, leadership skills, and experience with global engagement and understanding of the charities mission to help children in Brazil.
